How To Remove Smoke Odors and Soot from Surfaces

POSTED BY Jared Twitchell, Director of Marketing, Aramsco

Soot and Smoke Cleaning, Sealing, and Odor Deodorization

The following guidelines are suggestions only. Training and experience will be the most helpful in deciding the best procedures and cleaning agents for use in fire and smoke situations. You can receive professional, in-depth training through an Aramsco Distributor in your area. Please view our education calendar here. Proper testing and care must be taken before using any of the following suggestions and products on any surface.

Types of Fires:

PROTEIN FIRES

These include stove-top fires, burned and charred meat, or most fires where living tissue or hair proteins are involved.

WOOD AND PAPER FIRES

These include attic fires, fireplace puff-backs, most trash can fires, and general home fires where mostly the wood structure is involved.

SYNTHETIC FIRES

These include fires that involve carpeting and upholstered furnishings, electrical fires, and fires where plastic materials have been burnt. Note that most home fires will be a combination of wood and synthetic types.

Safety First

Before starting a soot removal job, equip yourself with proper Personal Protective Equipment (PPE). Wood soot contains many harmful chemicals, and the small size of the particles allows them to penetrate deep into the lungs. Additionally, soot can combine with moisture to form an acid. which is damaging to

moisture to form an acid, which is damaging to people and the property. Follow IICRC guidelines on proper PPE. At a minimum, wear an N95 mask, safety glasses, and chemical-resistant gloves.

Compatibility Testing

Before cleaning items, test to ensure that anything cleaned with water-based cleaning solutions is not sensitive to water. This includes distortion, color bleed, warping, etc. If an item is water-sensitive, dry cleaning methods will need to be used. Contact your local Aramsco if you have questions.

Timing

Soot is acidic and can quickly ruin the surfaces in your home. Soot can damage plastics, stone, metal, grout, painted surfaces, and textiles. Soot can also be inhaled into the lungs and contribute to severe respiratory illnesses. When removing and cleaning soot-covered surfaces time is of the essence. Begin immediately.

STEP 1 - DISPOSAL

Dispose of any heavily charred materials that can't be salvaged.

STEP 2 - DRY SOOT REMOVAL

Wood fires are generally the easiest to clean up.

The soot left behind is often dry and more easily removed by vacuuming and the use of a soot sponge than plastic or protein fires. Use a HEPA vacuum to remove as much soot as possible. A non-HEPA vacuum will just blow the soot back into the air.

Follow the vacuuming up with a soot sponge (also called a dry cleaning sponge) or a lamb's wool duster. Wear gloves and avoid getting the sponge wet as this will stop the sponge's ability to "grab" soot particles. Use the sponge like a giant eraser. The sponge will provide physical agitation and remove soot that the vacuum can't. Be careful not to apply too much pressure when removing soot with a soot sponge on porous surfaces. You want to avoid driving the soot deeper into the surface. Using the soot sponge, clean from the top down.

STEP 3 - CLEANING

Soot caused by synthetic material, like plastic, will be oily and can't be removed with vacuuming and soot sponges alone. Heavy-duty degreasers are required to break down the bonds the soot has with the surface. Most fires are a mix of synthetic and wood, so you'll almost always need to use a degreaser to completely remove the soot. Glass, highly-polished metal surfaces such as

appliances, and natural stone are quickly damaged by acidic soot. Clean these surfaces first.

Glass

Spray OmniPro Ultimate Glass Cleaner onto the glass surface and wipe off using a microfiber cloth.

 ${\bf Hard\ Surfaces:\ Tile,\ Stone,\ Concrete,\ Countertops,\ Painted\ Drywall}$

Spray or sponge OmniPro Vission or OmniPro Fire Power onto the surface at the recommended dilution. Wash vertical surfaces starting from the bottom up. This will prevent streaks. Rinse with water and wipe dry. For surfaces that are not water sensitive, a Gekko SX-7 can be used to power rinse surfaces. This will speed up the rinsing process.

Textiles: Carpet, Upholstery, and Clothing

Apply OmniPro Soot Wash according to directions. See the video of how OmniPro Soot Wash works to remove soot from clothes. If boosting is needed for:

 Whitening – add Bridgepoint Systems Boost All according to directions

cont'd. on inside back cover

ARAMSCO XPRESS NOTICE: SHIPPING, RETURNS, SHIPMENT DAMAGES, PRICES

SHIPPING Orders that are in stock will ship as soon as possible. Any items back-ordered will ship when available unless otherwise instructed. Large items that cannot ship via UPS will ship via a third party carrier and may not qualify for free freight. The carrier selected will be a third party with an affiliation with Aramsco. We prepay and add third party freight charges to your invoice. You may select a carrier of your choice, but you will be responsible for delivery costs directly to the carrier. Aramsco will not be responsible for service failures, charges, insurance or ownership of product using third party carriers.

RETURNS In the event you need to return an item, please contact our customer service department for an authorization number. Returns must be in the original packaging. Returns must be made within 30 days of your purchase. Custom or special order items are not returnable.

SHIPMENT DAMAGES In the event that your shipment is damaged in transit, please report the damage to the carrier driver. Damages should be reported on the freight bill. Keep the original packaging from this shipment.

PRICES All prices are subject to change without prior notice. Buyer will be invoiced at the prices in effect at the time of shipment. All taxes, transportation costs, duties and other charges are in addition to listed prices. Contact Aramsco for current prices and quantity discounts.

Syclone HEPA Air Scrubber

High-efficiency air filtration in a highly portable unit, the Syclone HEPA Air Scrubber is designed with advanced 2-stage filtration technology. The Air Scrubber is daisy-chain capable, and you can link up to five units on one power outlet. It's also stackable, lightweight and easily transportable!

Syclone Carbon Pre-Filter HEPA 400CFM

The Syclone Carbon Prefilter is the smoke/odor solution you have been looking for.

Used in conjunction with the standard filtration in the Syclone HEPA Air Scrubber Sentry X4. The Carbon Prefilter slips snuggly over the first stage filter retaining cage.

SYCLONE

SYCLONE

Made with premium high VOC absorbing active carbon bonded to thick multidensity media at a dry carbon weight of 340 GSY. The multidensity design allows increased carbon coating and secondary dirt holding capability.

Unlike other carbon solutions, the filter remains pliable over the life of the filter and won't crack. Moreover, the design allows for a low initial pressure drop, extending the life of the prefilter.

Novatek F0700 Novair 700 **HEPA Filtered Air Machine**

Remediation, air scrubbing, restoration, healthcare, and clean rooms are only a few applications.

- · More power: the most powerful impeller-driven variable speed adjustment, capable of delivering 200-700 CFM to dramatically increase filter life.
- · Versatility: asbestos removal, restoration projects, airborne pathogens and medical uses. Tri gasketing and HEPA filter sealing flange quarantee leak proof operation. Quick release intake door accepts MERV, carbon, and standard dust filters. Integrated nesting allows stacking of multiple machines. Built-in GFCI outlet or connecting multiple equipment up to 15 amps.
- Dent proof, leak proof and virtually indestructible heavy duty roto molded polyethylene shell
- Standard filters: 16" x 16" x 3" high-capacity HEPA filter.
- Low 3 amp power draw, in daisy-chaining up to three units. Built in GFCI outlets allow for safe and effective operation. Design ideal for virtually any application.
- Standard "Lay flat" or flex ducting: 10 to 12 inch vacuum ports allows for maximum airflow with little restriction.

Power cords are not included.

ltem	Description	Price
1686-2979	Novatek F0700 Novair 700 HEPA Filtered Air Machine	\$995.00

Syclone Black CFM **Negative Air Machine**

Designed for indoor use and to provide the most efficient air filtration with three stages of filtration, including a stage with HEPA (High Efficiency Particulate Air) filtration, that can remove 99.97% of particles 0.3 micron or larger from the airstream.

The first pre-filter stage removes large particles of 10 microns and larger from the air flowing through the unit, thereby preventing premature loading of the second stage and HEPA filters. The second stage filter (Ring

Panel Filter) removes particles that are 1 micron and larger from the air flowing through the unit, thereby protecting the more expensive, HEPA filter. The third stage filter (HEPA) removes smaller contaminated particles up to 0.3 micron from the air flowing through the unit and has an efficiency rating of 99.97%.

Dri-Eaz, HEPA 700 Filter, DOP Synthetic, 21" X 19" X 3.6

Designed specifically for the HEPA 700, these pre-filters and HEPA primary filter ensure the highest air filtration efficiency. With its standard 2-inch pre-filter and primary HEPA filter media, the HEPA 700 removes dust, mold and other particulates and passes the stringent DOP air filtration tests often required.

The optional activated carbon filter with a 1-inch pre-filter and HEPA filter will remove odors, fumes and smoke--especially helpful in wildfire-prone areas.

- HEPA 700 Command Hub displays the percent of life remaining on primary filter to help anticipate when it will require changing.
- Filters are designed to be replaced after use to prevent crosscontamination. (Do not clean and reuse.)
- Fast and easy filter changes no tools required!

WaterClaw .

KLEENRITE

Water Claw Flood Extractor

Designed for guick and easy flood extraction in preparation to the final drying process. The Water Claw's speed, performance and profitability in doing most flood jobs without removing carpet and pad has been proven in thousands of flood restorations worldwide.

The Water Claw Flood Extractor can be used to quickly evacuate black water floods, allowing you to more easily remove and carry out carpet and pad.

- Telescoping handle easily adjusts
- Perfect for use with portables. New sturdy hose flange accepts 11/2" hosecuffs (same size as deluxe small)
- Clear acrylic top plate for viewing extraction results
- Vacuum release to prevent suction lock-down when stronger vacuum systems
- Angled metal vacuum flange helps keep hose out of the way and accepts 1" or 2" hose cuffs
- Upright handle adjusts to variable heights and detaches for easy storage
- All metal parts are stainless steel, zinc coated, or powder coated
- · Polymer materials are impervious to water
- Clear acrylic top plate is highly resistant to chemical damage

SYCLONE

STELONE

Syclone XL LGR Dehumidifier with Filter

The Syclone XL LGR has unique factors that every contractor should know about:

- Billed under the XL category when working with insurance companies because it is designed for large flood jobs.
- A guiet machine. With an average operating noise of 53 decibels, the machine is no louder than a household refrigerator
- Can be wheeled in to every job, and has handles that make it easy to transport and store on your van.
- · Has extreme dew point technology. This is an optimal sensor technology that responds to the conditions going on to speed up or slow down the airflow. This optimizes the capture
- In the XL Dehumidifier category for Xactimate pricing based on pints per day (PPD) of water removal at the manufacturer's AHAM rating. At 125 pints per day removal at AHAM, it is at the lower end of this category.
- Incredibly easy to maintain. There are only four bolts that need to be removed to reach the guts of the machine.

You want a dehumidifier that you can monitor from a distance. Syclone makes this easy with its command hub feature.

Dri-Eaz, High-Performance Drying System, DriForce XL

The DriForce XL deploys more than 2X the static pressure to speed dry high-risk areas:

- · Walls and ceilings, especially with watertight finishes
- · Double and triple-sheeted firewalls, party walls, sound barriers and in-wall insulation
- · Walls behind cabinets and fixtures
- · Hardwood floors

Choose positive airflow to direct warm, dry air into cavities to accelerate drying OR negative vacuum to draw moist air out of wall cavities and floor flutes.

- · Superior Build, Premium Performance
- · Consistent high-power airflow Restorationoptimized Variable Frequency Drive in Airtech regenerative blower built rugged restoration use - and no factory recalibration required
- High performance, low amp draw Operates on standard 15-amp circuit
- Sturdy, long-life build Open air design enhances component cooling for extended life expectancy - and even quieter than enclosed units
- Easy transport Rugged frame and large wheels, nests securely for stacking and storage

ltem	Description	Price
2699-3446	Dri-Eaz DriForce XL Base Unit Only (ea)	\$3,979.00

Phoenix 250 MAX LGR **Dehumidifier**

Combines the best features of the 200 MAX and 200 HT into one unit. Outstanding low grain and hi-temperature performance. Pulls only 8.2 amps and has a powerful 365 CFM of airflow.

Item 1629-2070 Phoenix 250 Max High Temperature Description High Capacity LGR Dehumidifier (ea)

njectidry

Injectidry

Injectidry® Airmover Adapter

The Direct-It universal air mover adapter is a must have for serious contractors. Great for drying walls, ceilings, and cabinets.

- · Attaches to any standard air mover
- Dry up to 22 ft with one air mover
- · Direct air in as many as 17 different directions

Universal, includes: hoses and adapter to fit holes as small as 5/8 inch, 150 ft of hoseline, 17-5/8 inch wall penetrators and (17) hose cuffs.

Item	Description	Price
55328	Injectidry UAA1 Direct-It In Universal Airmover Adaptor (ea)	\$738.00

Injectidry Floor Drying System

The HP60 comes complete with Hose, Panels, Panel T's, and Carry Bags.

F287 Rescue

Item	Description	Price

Don't see it here? Call us for solutions!

Injectidry MP Multi-Port 46" X 30" Panels

Simplify the set-up process and significantly reduce your labor costs. After extracting excess water, simply tape around the edges, hook up the tubes (or hoses to manifolds), then hoses to the air in (negative pressure)

port of your HP system, and turn the system on.

For safer drying use with the interceptor HEPA system. Use to dry all sorts of wet materials, such as hardwood, headers, and plaster walls. (Taping the edges is the only way to ensure a consistently good seal and minimize the trip hazard).

ltem	Description	Price
55708	Injectidry MP Multi-Port 46" X 30" Panels (ea)	\$789.00

Injectidry HP PLUS Floor Drying **Package**

The HP-PLUS Package is designed specifically for floors. The set-up is extremely quick, easy and efficient for your typical floor drying needs. Several decibels quieter than even the quiet HP60, no breaker tripping on startup, consistent pressure with no need for pressure relief valves.

Dri-Eaz Dri-Force InterAir Drying System

Dry hard-to-reach areas and complex assemblies fast. Draw moist air out or direct high-pressure air into hard-to-reach structures and dry them quickly and with minimal disruption.

DRIEAZ

Make quarter-inch holes behind baseboards or kick plates to dry interior spaces and complex assemblies.

ltem	Description	Price
A32842	Dri-Eaz Dri-Force InterAir Drying System (ea)	\$2,858.00

OmniDry Flexidry Wall Drying System

The Flexidry makes it faster and easier to dry wall cavities.

The Flexidry comes with eight reinforced openings that are spaced 16" apart to match stud cavities. The ¾" hose barbs and rubber hoses are user replaceable, and can be customized to fit the particular drying situation. One Flexidry covers an 8-foot section of wall, and you can connect up to five Flexidry's for runs down long hallways or walls. The Flexidry can even bend around corners. The universal cinch-tight opening will accept any centrifugal airmover or E-TES. The cinch-tight opening uses industrial hook 'n loop straps to cinch around the airmover opening, reducing airflow loss and keeping the Flexidry firmly locked in place. Comes with a convenient carry bag for storage and transportation.

- Faster wall cavity drying time
- · Bends around corners
- Replaceable/customizable hoses
- · Universal fit

1690-0526	OmniDry AC514 Flexidry Wall Drying System (ea)	\$363.90

Restoration Tools The Aerator AERP01

Invented and designed by experienced pros in the restoration industry, The Aerator is an innovative tool to improve and speed-up the restoration process after a water-loss event.

The Aerator is designed for use in wall cavity drying. It creates a precise 5/8" hole in wet drywall leaving no debris to clean up. No longer back-breaking work, the process can be completed 15X faster than the traditional drill and vacuum.

What would normally take a technician an hour, they can now do in 5 minutes!

ltem	Description	Price

Extech Pinless Moisture Psychrometer & IR Thermometer

Eight--in-1 meter that combines a Pin/Pinless Moisture Meter with a built-in InfraRed Thermometer. Additional measurements include: Temperature, Humidity, Grains per Pound, Dew Point, Vapor Pressure, and Condensation Point. Complete with pin moisture probe, 9-Volt battery, and case.

- Pinless moisture sensor allows to monitor moisture in wood and other building materials with no surface damage
- Select from multiple wood types and measurement ranges
- Easy to read, large dual display with backlit feature
- Simultaneously displays % moisture of wood or material being tested and Air Temperature, IR Temperature, or Humidity
- Pinless measurement depth to 0.75" (19mm) below the surface
- Non-Contact InfraRed Thermometer with 8:1 distance to spot ratio and 0.95 fixed emissivity
- Built-in Humidity/Temperature probe measures Relative Humidity, Air Temperature plus Grains Per Pound (GPP), Dew Point (DP), and Vapor Pressure
- · Programmable high/low Moisture and Humidity alarms
- Automatic calculation of differential Temperature (IR DP) to determine condensation point
- · Min/Max and Data Hold, Auto Power Off
- Complete with battery and pouch case

Delmhorst BDX-20

The BDX-20 is the newest in the legendary "BD Series" pin meters for the building trades. This rugged meter has an ergonomic design with an easy-grip handle and large tactile buttons for comfort and usability. Equipped with a custom, LCD display and intuitive user interface, users can guickly obtain accurate readings. The BDX-20 will ensure maximum performance and reliability on every job.

The BDX-20 includes 3 built-in measurement scales — Wood, Reference Scale and Drywall – plus all the great features of the BDX-30. It is not compatible with the EDGE app.

- Large, custom display with auto backlight easy to read under all conditions.
- 3 measurement scales: Wood (Douglas Fir); Drywall; Reference Scale
- · Wood temperature correction
- · Alarm set point alerts to user-selected MC level
- · On-screen readings statistics
- · Internal calibration check
- Pins/electrode correction (insulated or non-insulated)
- Integral contact pins max 5/16" penetration (use 2498/A-100)
- Compatible with any Delmhorst external electrode.
- · Color-coded LED's
- Sturdy plastic carrying case included
- Power 2x AA batteries Alkaline Energizer included
- · "Low Batt" warning with audio
- Auto-off timer. Set to 1m, 4m or 10m
- QR code on meter for easy access to support materials
- Size: meter only 8.65in (2.2mm) x 2.85in (72mm) x 1.55in (39mm); in carry case - 9.5in (241mm) x 6.5in (165mm) x 2.5in (64mm)
- Weight: meter only 0.4.5oz (1.3q); in carry case 18oz (510q)

Fiberlock Recon ULTRA WHITE Smoke & Odor Sealer

Premium solvent-free smoke odor sealant and stain blocker to eliminate malodors on surfaces and block tough staining.

Prevents smoke odors and stains from migrating through. Contains specialized malodor neutralization, provides one-coat odor control on most surfaces, and blocks

odors even with seasonal changes in temperature and humidity.

- Superior smoke-odor and stain blocking
 - · Finish grade, solvent free One-coat odor control
- Superior application characteristics Moisture permeable
- Superior recoatability Easily topcoated
- Blocks pet and trauma scene odors · Works with temperature & humidity changes
- Item Description Price Fiberlock 3092 Ultra Recon Smoke & Odor Sealer. 1653-5458 \$255.09 White, 5 Gal. (ea) Fiberlock 3092 Ultra Recon Smoke & Odor Sealer, 1605-5182 \$255.09 Clear, 5 Gal. (ea)

Fiberlock Recon Smoke & Odor Sealer

Recon Smoke Odor Sealer with OdorLock technology is water based, low VOC, low odor and is not flammable. Unlike typical water based coatings that wick smoke odors and stains out of the substrate as they dry, RECON Smoke Odor Sealer with OdorLock technology prevents smoke odors and stains from migrating through the coating. This technology provides one coat odor control on most surfaces and continues to block

odors even with seasonal changes in temperature and humidity. RECON Smoke Odor Sealer is specifically designed to encapsulate malodors on multiple surfaces including, wood, brick, concrete, plaster, plastic and metal. RECON Smoke Odor Sealer is fast drying and has exceptional application characteristics. RECON Smoke Odor Sealer is your final step to encapsulate residual odors typically found on fire damage restoration projects.

- · Permanently encapsulates smoke odors
- · Highly permeable; doesn't trap moisture
- Can be applied in ductwork
- · Excellent stain blocker
- Water based and non-flammable
- · Bonds to nearly any substrate
- · Ideal for use in wall cavities
- Low VOC

OmniPro Fire Power Heavy Duty Cleaner

When you need a hard hitting degreaser, you need Fire Power. Fire Power uses a powerful blend of surfactants, alkaline builders and solvents to dissolve away soot and other hard-to-clean soil from walls, paneling and wall coverings.

	••• OMNIPRO	
ltem	Description	Price

OmniPro Vission Multi-Purpose Cleaner

A green surfactant and alkaline-builder blend for removing smoke residues from painted or covered/panelled walls. Excellent general-purpose and oil-mess cleaner. Pleasant orange scent, derived from food-grade orange oil.

ltem	Description	Price
1673-2240	OmniPro Vission, 1 gal. (ea)	\$39.40

Unsmoke Systems Degrease-All Solvent Cleaner

1617-2847 OmniPro Fire Power, 1 gal. (ea)

Degrease-All is a specially formulated ammoniated solvent that removes smoke residues, grease, and other difficult soils from painted surfaces, metal, concrete, tile, sealed or unsealed wood, hard floors and wet cleanable fabrics.

Unsmo	ke Sy	/stems
Liquid	Wall	Wash

Cleans any hard surface and is especially effective on smoke damage. Can be used to clean nicotine off blinds, ceiling grids, air filters, and fans. Excellent for removing grease and oils from vinyl, concrete, and more. One gallon makes up to 33 ready-to-use gallons of solution.

Unsmoke Systems Unsoot #1 Encapsulant

This long-lasting barrier helps prevent the release of particulate, thereby helping to improve indoor air quality and occupant comfort after restoration. Use on structural wood, or for sealing duct work and ceiling plenums after fires, smoke damage, or oil burner puff-backs.

EnviroSHIELD™ Masonry 3000 Waterproofer

Forms an impermeable barrier to water on interior or exterior, vertical or horizontal concrete block and cast-in-place concrete. Backed by a 15 year waterproof and 10 year mold and mildew resistant finish guarantee, it stops moisture from entering or exiting a concrete surface. Masonry 3000 can be used to stop moisture from entering basement or cellar walls and concrete subfloors and will stop water from exiting when applied to canals and holding basins. This coating can also be used as a block filler for commercial applications such as car washes and garages where high performance topcoats are applied.

ProForce Armor Gloves

Premium level hand protection. High performance HPPE ANSI A3 cut-resistant gloves designed for protection of hands from cuts, scratches and abrasions, which are the number one cause of job site injuries.

Work applications include demolition, restoration work, construction, cutting applications, sheet metal work, and handling of sharp-edged material and waste.

Features

- · 13-gauge gray speckled highperformance HPPE shell for protection and greater cut resistance up to the wrist
- Anti-impact Thermo Plastic Rubber (TPR) molded back of the hand, knuckles, and fingers for excellent protection while still offering high dexterity and cut resistance
- ANSI A3 cut level protection
- Textured nitrile coated palm for abrasion and cut resistance
- · Knitted wrist protects against dirt and debris entering the glove

- Excellent grip performance in oily, wet, or dry applications
- Color coded for easy size identification
- Seamless construction offers superior breathability, comfort and fit throughout the work day
- · Tear resistant
- Washable

52550	North Dual Cartridge Elastomeric Full Face Respirator, Medium/Large (ea)	\$151.50
52551	North Dual Cartridge Elastomeric Full Face Respirator, Small (ea)	\$151.50

7600 Series Full Facepiece Respirator

Features a dual flange sealing area for improved fit and comfort, and a five strap suspension. The nose cup and face seal are 100% silicone. Provides superior fit, comfort and reliability.

Facepiece comes with a speech diaphragm that helps amplify workers' conversations when directions, warnings and other communication must be heard by others. Hard coated polycarbonate faceshield offers a wide 200 degree field of vision.

- Can be adapted to a PAPR and a continuous flow supplied-air respirator
- · Lens offers 200 degree field of vision, plus downward view

- · Wide sealing area
- · Latex-free
- · Chin cup helps to position the facepiece properly

ltem#	Description	Price
52490	North Dual Cartridge Elastomeric Full Face Respirator, Medium/Large (ea)	\$316.23

MSA Advantage 3200 **Full Face Respirator**

- Full face respirator features state-of-the-art design to lower breathing resistance, and preset upper straps make put on/take off easy
- Scratch-resistant wraparound faceplate allows for wide field-of-vision
- · Hand-replace components in seconds
- Pre-adjustable straps deliver a consistent fit, time after time
- Preset upper straps prevent uncomfortable snags during donning and doffing and provide a tighter, more secure seal

DRYING | CLEANING EQUIPMENT

Omni Dry™ Flexidry Wall Drying System

The all new Flexidry makes it faster and easier to dry wall cavities. The Flexidry comes with eight reinforced openings that are spaced 16" apart to match stud cavities. The ¾" hose barbs and rubber hoses are user replaceable and can be customized to fit the particular drying situation.

One Flexidry covers an 8-foot section of wall and you can connect up to five Flexidry's for runs down long hallways or walls. The Flexidry can even bend around corners. The universal cinch-tight opening will accept any centrifugal airmover or E-TES. The cinch-tight opening uses industrial Velcro straps to cinch around the airmover opening, reducing airflow loss and keeping the Flexidry firmly locked in place.

Comes with a convenient carry bag for storage and transportation.

ltem	Description	Price

HF HYDRO-FORCE

WaterClaw^{*}

Hydro-Force SX-12 Hard Surface Cleaning Tool

• 12" Cleaning path

WaterClaw⁻

- Simple 2 piece head and brush construction
- · Adjustable vacuum relief
- Aerodynamically engineered radial vacuum line creates a laminarflow vortex in the cleaning head that allows the SX-12 to remove water twice as fast as competitive models
- Toe-adjustable vacuum relief lets you adjust the suction strength on the fly
- · Low profile allows the unit to fit under toe kicks
- Easy access inline filter makes cleaning the filter a snap
- Quality components will handle operating pressures from 700 to 1,500 PSI so you can blast away oily deposits, and more

Hydro-Force Gekko Wand

The Gekko Wand is the heart of the Gekko system. The wand attaches to any of the Gekko or SX-7 tools using a threaded collar. Stainless steel tubing, adjustable ergo handle and swivel head makes this the premier wand for grout and tile cleaning.

item#		vescription	
	1693-1267	Hydro-Force Gekko Wand, no head (ea)	

Hydro-Force 14"Gekko Brush Head

The 4" Gekko Head is designed for serious grout cleaning when a spinner tool just won't cut it. The Gekko Head uses a concentrated jet to blast stubborn soil from grout lines and tight spots.

\$208.87

Hydro-Force Gekko Squeegee Head

The Squeegee Tool is ideal for surfaces pressure cleaning and instantaneous d times. New for the Squeegee Head are spray guards on the sides of the squeegee that stop water from

splashing out the sides, yet still allow air to flow to prevent wand suck-down.

ltem#	Description	Price
1609-1579	Hydro-Force Gekko 14" Squeegee Head (ea)	\$249.98

Hydro-Force 14"Gekko Brush Head

The brush head is ideal for surfaces that need extra brush agitation in addition to high pressure cleaning. The unique housing design allows the jets to screw directly into the metal head instead of the older design using a spray bar that goes across the manifold.

ltem#	Description	Price
1601-1672	Hydro-Force Gekko Brush Head, 14" (ea)	\$265.08

Hydro-Force Nautilus Portable Extractors

Whether you're extracting flood water and need maximum lift, or cleaning tile and need maximum airflow, the Nautilus portable extractor has you covered.

The AirFlow+ vacuum system allows you to quickly change

∂⊓∧⊔TILUS

your vacuum motors from a series configuration to a parallel configuration in under a minute with no mechanical skill needed. The Nautilus has achieved Platinum Certification from the Carpet

and Rug Institute (CRI), the highest designation available from CRI.

OmniPro Multi-Function Moisture Meter

This meter is a series of moisture/humidity meters with built-in infrared (IR) temperature sensing. It is a powerful and versatile instrument for measuring and diagnosing dampness in buildings and building materials.

OMNIPRO

- IR design to measure non-contact surface temperature; 8:1 distance to spot ratio with 0.95 fixed emissivity
- Built-in humidity/temperature probe measures relative humidity, air temperature plus grains per pound (GPP), and dew point (DP)
- Automatic calculation of differential temperature (IR - DP)
- Min/Max and Data Hold X Auto power off and low battery indication
- · Memory function

ltem	Description	Price

Viper Venom II Tile & Grout Cleaner

Viper Venom II blends ingredients proven to be effective on a range of oils and dirt, and includes special additives that suspend soils so that they can be easily rinsed away.

- · Odorless, Viper Venom II can be mixed with citrus boosters or other fragrances depending on the customer's preference.
- 270% increase in grease-cutting surfactants over Viper Venom. This results in improved cleaning power without having to rely on solvents.
- 100% reduction in noxious solvents, making it easier to work in confined spaces with poor ventilation
- 50% reduction in foam levels
- · Improved safety formulation without sacrificing cleaning effectiveness

ltem	Description	Price
1656-7024	Viper Venom II Tile & Grout Cleaner, 1 Gal. (ea)	\$29.21

Viper Renew

When all other cleaners have failed, Viper Renew works on the acid side of the pH scale to remove soils and stains on grout and tile even if neglected for years. Viper Renew removes a very thin layer of grout removing hard water deposits, soap scum and efflorescence. Proprietary organic salt is twice as effective as phosphoric acid at dissolving calcium carbonate, without unpleasant fumes. A solution for the most extreme tile and grout cleaning situation.

Item	Description	Price
1636-0582	Viper Renew CH49L, 1 gal. (ea)	\$40.39

Viper Venom

If you prefer a high alkaline, solvent fortified chemical to deal with heavy soil on hard surfaces, you want Viper Venom. The original tile and grout cleaner, it removes years of built-up grease, dirt and stains.

Dilute it 1:1 for tough jobs, more for lighter jobs. You'll see the dirt start to lift out of the grout even before you begin using vour machine. Rinse well.

ltem	Description	Price
A70618	Viper Venom CR22GL, 1 gal. (ea)	\$29.23
1613-0890	Viper Venom CR22PL, 5 gal. (ea)	\$134.44

Hazardous material. Additional shipping fees may apply. Regulations must be referenced to determine eligibility for air shipment.

Viper Stone Tile and Grout Cleaner

Viper Stone is an alkaline pre-treatment cleaner for stone, man-made ceramic, porcelain and quarry tile. Amazing advances in surfactant technology help Viper Stone melt away grease, stains and soil and do it without the addition of solvents or highly caustic builders.

Item	Description	Price
1610-1913	Viper Stone, Tile and Grout Cleaner CH43GL, 1 gal. (ea)	\$23.87

Viper Venom Powder with Citrus

Viper Venom Powder with Citrus is a heavy duty tile & grout prespray designed for use with all types of pump or electric sprayers. Best results are obtained when mixed with hot water.

(such as Viper 11 or Viper 2).

Item	Description	Price
1680-2225	Viper Venom Powder with Citrus CR23A (6.5 lbs.)	\$66.04
1681-2226	Viper Venom Powder with Citrus CR23A (36 lbs.)	\$264.85

Viper Peroxibright

Peroxibright CTG is a synergistic product breakthrough that cleans and brightens even the grungiest concrete, tile and grout floors, fixtures, and walls. The activated effervescent solution gets into every crevice, crack and pore to emulsify, dissolve and deflocculate even the most stubborn soiling.

Item	Description	Price
1677-1622	Viper Peroxibright CTG CH41GL, 1 gal. (ea)	\$38.35

Viper Peroxiblast

Viper Peroxiblast Powder cleans and degreases the grungiest concrete, tile and grout floors, fixtures, and walls with a concentrated balance of surfactants and alkaline builders that are oxygen activated. This high performance, heavyduty concrete, tile and grout cleaner and degreaser safely replaces mineral spirits and chlorinated solvent-based heavy-duty concrete degreaser products.

Item	Description	Price
1687-2121	Viper Peroxiblast CTG (7.5 lbs)	\$73.15

Description Price Viper 7 Neutral Cleaning Agent CH45GL, 1 gal. (ea) 1667-1618 \$32.08

Viper 7 Neutral Cleaning Agent

Viper 7 is an excellent neutral cleaning agent used as a

maintenance cleaner, as well as to rinse and neutralize hard

surfaces where alkaline or acid cleaners have been used first

Viper Grout & Concrete Sealer

Our most economical sealer, this unique formula achieves all the benefits of solvent-based grout sealers in a waterbased product. It resists soils, stains, chemical degradation, biological growth and even efflorescence and offers excellent oil and water repellency.

Can be used on grout, concrete and any porous tile such as guarry or Saltillo, and is vapor permeable.

-GUARD

Syclone Air Scrubber Prefilter

Carbon Pre-Filter for Syclone HEPA **400CFM Negative Air Machine**

The Syclone Carbon Prefilter is the smoke/odor solution you have been looking for. Used in conjunction with the standard filtration in the Syclone HEPA Air Scrubber Sentry X4. The Carbon Prefilter slips snuggly over the first stage filter retaining cage.

Made with premium high VOC adsorbing active carbon bonded to thick multi-density media at a dry carbon weight of 340 GSY. The multi-density design allows increased carbon coating and secondary dirt holding capability.

Unlike other carbon solutions, the filter remains pliable over the life of the filter and won't crack. Moreover, the design allows for a low initial pressure drop, extending the life of the prefilter.

ltem	Description	Price
2677-1612	Syclone Carbon Pre-Filter for 400 CFM Negative Air Machine, 5/Pk	\$161.50

Makita Angle Grinders

Makita's SJS™ Angle Grinders combine 13-amp variable speed power with comfort and motor-protection features for longer-

lasting stone grinding and polishing performance.

Engineered with Makita's innovative SJS mechanical clutch system to protect the • gears for longer tool life.

- Powerful 13 AMP motor delivers more output and variable (2,800 – 10,500) • Electronic current limiter helps protect
- SJS technology is a mechanical clutch Labyrinth construction seals and system that helps prevent motor and gear damage by allowing the drive shaft to slip if the wheel is forced
- · Variable speed control dial enables user to match the speed to the application
- · Constant speed control automatically

applies additional power to the motor to maintain speed under load

- Soft start suppresses start-up reaction for smooth start-ups and longer gear life
- the motor from overload
- protects the motor and bearings from dust and debris for longer tool life
- · Slide switch with lock-on setting for continuous use
- · "Tool-less" wheel guard for more convenient adjustments

Highest service life for extreme applications: robust, powerful angle grinder, with speed control and greatest power density in its class for quick work progress.

· Longer service life, more drive; the Metabo LongLife Motor with patented dust guard, up to 20% more high overload capacity and 50% more torque

FOAM-iT Pump-Up Foam Unit

Compact and stable, with manual pump, product-level view stripe, and pressure relief valve for safety.

- Comfortable grip handle with on/off trigger
- Nozzle with 110 degree fan tip

Item

- · Viton pump seals for chemical compatibility
- Polypropylene tank and pump head

Description \$56.49 1672-6212 FOAM-iT Pump-Up Foamer Unit, 1.5 Liters, White Tank (ea)

PureMist Wet Fogger

Compact & stable. PureMist fogger is the best choice for open-area and sub-surface deodorizing, and disinfecting with water-based deodorizers and disinfectants that are EPA approved for fogging.

You control the settings

On fine settings, the PureMist atomizes 95% of its output to particles of 20 microns. Ideal for deodorizing and disinfecting!

On heavy settings, 95% of its output is below 60 microns. Perfect for duct sealing or applications where heavy wetting is desired.

The PureMist Fogger has an ultra high-speed, 2-stage motor, variable output from 0 to 18 oz. per minute, adjustable flow control valve, flexible 32" directional hose and a corrosion-proof poly supply tank.

ltem	Description	Price
1686-1864	PureMist AS40 Light Blue ULV Wet Fogger with Flow Control (ea)	\$524.22

Hydro-Force 2 Gal. **Pump Up Sprayer**

"The World's BEST Sprayer"

- 1. Clip for wand is now molded into lid (increased durability)
- 2. Pressure relief valve can be turned and locked open/closed
- 3. O-ring is now on the tank instead of the cap (less contact with chemicals)

The perfect sprayer for small to medium jobs.

- · Heavy duty chemical resistant hose
- 18" Brass extension
- Solid brass trigger assembly
- · Completely rebuildable
- Heavy duty parts
- · Wide mouth, easy fill bottle
- · Viton check valve
- · Pressure gauge & relief valve

HE HYDRO-FORCE

ZipWall Pass Through

An efficient way to duct air through a ZipWall barrier for drying and restoration or for setting up negative air.

Resealable opening for passing a duct hose up to 14" in diameter through a ZipWall barrier. Mounts onto any ZipWall pole and supports the weight of any hose while maintaining the integrity of the barrier. A nylon fabric sleeve seals around the hose with a quick cinch. When the hose is removed, the sleeve can be cinched closed to completely seal the opening.

Pole and hose are not included.

Item	Description	Price
2600-0125	Zipwall Pass Through for Duct Hose (ea)	\$107.65

56169	Clear 6 mil ACM Printed 30" x 40" (100/roll)	\$116.08

Industrial Duty Clean-up Bags

Perfect for commercial restoration and industrial cleanup. Large capacity for various types of waste. The 6 mil thickness is perfect for heavy waste with sharp edges that could puncture or tear ordinary, thin garbage bags.

- Extra heavy duty for the most demanding jobs
- Thick 6 mil clear poly
- · Puncture and tear resistant
- 44 gallon size
- · Perforated rolls

ltem	Description	Price
56187	Industrial Duty Clean-Up Bags, 33"x 50", 6 mil, Clear (75/roll)	\$101.02

Contractor Clean-Up Bags

- · Designed for heavy loads
- 42 gal. size
- · Thick mil for heavy-duty applications
- · Non-Printed
- Perforated
- 33" width by 48" length
- Black

ltem	Description	Price
A81834	3 Mil, 42 Gal., Black (32/box)	\$19.64

How to Remove Smoke Odors and Soot from Surfaces

cont'd, from inside front cover

- Degreasing add Bridgepoint Systems Citrus Solv II according to directions
- · Deodorizing add OmniPro Smoke and More, Original

Rinse carpet and upholstery according to directions with either Flex Fire for polyester or olefin fibers, or Flex Ice for nylon or wool fibers.

Wood

Porous, deeply stained wood might require the use of a degreaser to lift the soot out of the pores. Apply a light amount of OmniPro Vission, if needed, to remove embedded soot. Use as little as possible and be aware that excess water can warp the wood. Wipe off any remaining moisture.

- If a degreaser won't remove the soot, you can use #0000 steel wool.
- After cleaning, the oils in the wood can be removed and leave the wood looking dull. Apply OmniPro Lemon Oil Furniture Polish to restore luster back to the wood.

STEP 4 - ODOR NEUTRALIZATION

- Vaportek Vapor Shark along with Smoke Odor Solution (SOS) membranes, or a Hydroxyl Generator can be used as soon as you begin working since they can be used in occupied areas.
- Use a ULV (cold) fogger to apply OmniPro Smoke & More Lemon or OmniPro Smoke & More Original at the recommended dilution.

- 3. When spraying a hard surface like drywall, wipe off the surface using a towel to prevent water spots. Some surfaces like glass won't need deodorization if they've been cleaned properly.
- 4. If a ULV fogger isn't reducing the odor, try using a thermal fogger. A thermal fogger creates smaller particles than a ULV fogger which allows them to penetrate deeper into materials. Proper safety procedures, including appropriate respiratory protection, must be followed when using a thermal fogger. Use the following deodorizers for these types of fires:
 - · Protein Fires: Odorx Thermo2000. Citrus
 - · Wood and Paper Fires: Odorx Thermo-2000, CherryL
 - · Synthetic (plastics) Fires: Odorx Thermo-2000, Kentucky Blue Grass

STEP 5 - ODOR SEALING

Do it right the first time.

Some odors are so extreme that they require a sealer to prevent them from returning. This is often the case with porous materials like drywall or wood. The small size of the smoke molecule, and the heat and pressure from the fire, drive the molecule so deep into the material that cleaners and deodorizers are ineffective at removing these odors.

Bridgepoint Systems Odor Sealer

In these severe cases, a sealer can be painted onto the material to permanently trap odors behind a water-permeable barrier. It is important to use a professional-level sealer. Cheaper sealers will cost you much more money in the long run since odors, and even smoke stains can reappear after painting over the sealer. This will require you to repeat the sealing process with a higher-quality sealer, ultimately **costing you much more in labor and materials**.

- 1. Ensure the surface is dry and free from soot before applying sealer.
- Apply sealer according to label directions. Sealers can be sprayed, rolled, or brushed on.
- 3. Recommended sealers:
 - Clear to Milky White: Bridgepoint Systems Odor Sealer: Urine & More, Fiberlock Recon Ultra Smoke Odor Sealer
 - · White: Fiberlock Recon Ultra Smoke Odor Sealer
- 4. Once dry, the surface may be painted. The sealers above serve as both primer and sealer.

Attributes to look for in a Quality Sealer

- A water-based formulation- A water-based sealer will save you time, money, and headaches. Oil-based formulations increase the risk of fire damage and require extra care: increased ventilation, evacuation of inhabitants, and removal of all ignition sources. Legacy sealers, such as shellacs should be avoided except for very niche circumstances since water-based sealers will be the best choice for the vast majority of fire jobs you deal with.
- A sealer that will seal in smoke odors but will be permeable and allow water evaporation - This prevents condensation behind the sealed surface which can lead to mold and water damage.
- Easy to clean up and remove from spraying/painting equipment Some sealers can become so hard and impervious to chemical cleanup that vou'll have to throw away your paint sprayer.
- Low volatile organic compounds (VOCs) Water-based formulations almost always produce lower VOCs than their oil-based counterparts.
- Easy waste disposal requirement Oil-based solutions will generally have special disposal requirements.
- Minimal PPE requirements It's always advisable to use eye and hand protection, but oil-based sealers will often have special respiratory PPE requirements as well.
- · Minimal off-gassing odors
- Easy mixing Shellacs and oil-based sealers can be difficult to mix.

MISC. TIPS

 Water damage is often a secondary issue with structural fires. Detect wet areas using an OmniPro meter.OmniPro M18-400 Multifunction Meter: moisture, psychrometer, IR thermometer

- a. OmniPro T16-200 IR thermometer
- b.OmniPro M18-500 Restoration Multi Meter: hygrometer, IR thermometer, distance meter
- Accelerate drying of large areas with a large OmniDry air mover, or for small areas, like closets, use the OmniDry mini air mover.
- Air quality can be measured using an OmniPro X16-200 Mini Particle Counter.
